
HELP PROTECT PIGS!

The only difference between pigs and dogs is how we treat them. Pregnant pigs on factory farms spend most of their lives in tiny metal crates on cold concrete floors, where they can't even turn around or lie down comfortably. Pigs are also castrated, have their tails cut off, have their teeth clipped, and then are hung upside down and have their throats slit—all without painkillers. It's wrong to do these things to dogs, and it's wrong to do them to pigs. By signing this petition, I agree that it should be illegal to treat pigs like this.
