
TELL BURBERRY TO BAN FUR!

Animals slaughtered for the fur that Burberry sells suffer miserable lives and excruciating deaths. Fur farmers use the cheapest and crudest killing methods available, including suffocation, strangulation, and anal electrocution. When these cruel methods are used, animals sometimes end up being skinned alive. There is no excuse for using the skins of abused animals when there are so many humane alternatives available. Please sign this petition urging Burberry to keep real fur off its racks and to let it stay on animals' backs!
