HELP STOP THE CANADIAN SEAL SLAUGHTER!

More than 205,000 seals were killed last year in Canada's annual seal massacre—which is nothing more than a money-making scheme orchestrated by professional fishers who apparently have nothing better to do during the off-season. These animals, often just weeks old, have their skulls smashed in or are shot and then skinned for their fur. There is no larger massacre of marine mammals on Earth, yet this horrifying slaughter is scheduled to start again very soon! Please sign this petition asking the Canadian government to ban this bloody and gruesome event once and for all.
