

**DO YOU KNOW WHAT'S
HAPPENING TO ANIMALS
BEHIND CLOSED DOORS?**

UNSEEN THEY SUFFER

Across the U.S., millions of animals—including cats, dogs, rabbits, and primates—are trapped in cold, barren cages and forced to endure painful experiments, often without any relief. Many of these heartbreaking tests happen at universities, and none are illegal—no matter how cruel or pointless. Worse, they rarely lead to treatments for humans. With today's advanced, humane alternatives, it's time to end animal experimentation.

**YOU CAN HELP STOP THIS—SPEAK OUT
AGAINST ANIMAL TESTING!**

peta2
